CALL OFF YOUR OLD TIRED ETHICS

SENATE BILL 2713

#SolicitingForChange
1) **SENATE BILL 2713 WILL REMOVE**…

**A. Anti-prostitution laws** that are used to arrest sex workers and sex trafficking survivors
- These laws drive us underground and prevent us from going to the police when we are victims of violent crimes.

**B. Anti-solicitation laws** that are used to arrest our clients.
- These laws prevent clients from going to police when they encounter a sex trafficking victim.

**C. Felony "pandering" laws** that are used to arrest sex workers when we work together for safety and our non-violent support staff when we hire them for our safety.
2) These laws MUST be removed so that sex workers, sex trafficking survivors, our clients, colleagues, and support staff can go to the police when we are a victim or witness of a serious crime like sex trafficking, assault, murder, or child pornography.

3) Another benefit of decriminalization is that sex workers will be able to address problems with exploitative landlords or coercive colleagues in the same way anyone else can.

4. Decriminalizing sex workers, our clients, and non-violent support staff will end the conflation of consensual sex work with sex trafficking and other violent crimes so that our public safety budget can be spent on addressing violent crime instead of on condemning adults for having consensual, private, adult sex.
